SUMMARY

Final-year B.Tech student in Computer Science and Engineering with a strong foundation in programming, web development, and database management. Seeking an entry-level opportunity to apply my skills, learn, and contribute to organizational success.

PROJECTS

Customer Relationship Management (CRM) System

Technologies Used: HTML, CSS, JavaScript | Spring Boot | MySQL

- Designed and developed a responsive frontend interface to manage customer data, leads, and interactions. Integrated dynamic UI components for smooth user experience and enabled role-based access for admin and users.

Digital Visitor Management System

Technologies Used: HTML, CSS, JavaScript | Spring Boot | MySQL

- Created a web-based visitor registration and tracking system with OTP authentication, real-time logging, and an admin dashboard

INTERNSHIPS

AWS Services and Sigma-Spartakas Learning Solutions

September 2024

- Hands on practical of cloud and web services.
- Implemented AWS services like Compute, Storage, Autoscaling and Load balancing etc.

Web Developer Intern - CODSOFT

July 2024 - Aug 2024

- Implemented changes to make websites more attractive and usable.
- Gained hands-on experience in front-end web development, focusing on design principles, browser compatibility, and optimizing website performance.

EDUCATION

Bachelor of Technology - Computer Science & Engineering

Oct 2021 – Pursuing

- Rakshpal Bahadur College Of Engineering & Technology

Intermediate, UP Board (PCM)

2021

- R.P.K.D. Inter College Ballia, Bareilly

SKILLS

- Programming Languages:** J2SE
- Web Technologies:** HTML, CSS, Javascript
- Cloud:** AWS
- Soft Skills:** Team Collaboration, Time Management

CERTIFICATES / ACHIEVEMENTS

- Web Development Internship Certification — CodSoft
- AWS Cloud Computing Workshop Certification — Sigma-Spartakas Learning Solutions
- Volunteer at Marathon At RBCET (2024/25)
- Volunteer at STEM Carnival At RBCET (2024)
- Building Android Apps with AWS-LinkedInLearning
